

How to submit data

to the Atlantic Canada Conservation Data Centre

Option 1

Submit your data directly to us

Option 2

Use iNaturalist

Step 1

Download the template

The template is always up to date at github.com/atlanticcanadacdc/template

Step 2

Use the reference guide

All the information you need to enter your data into our template is at github.com/atlanticcanadacdc/template/wiki

Step 3

Enter your data into the template

Ready? Email your spreadsheet (and any photos!) to datasubmissions@accdc.ca

Step 1

Log in to iNaturalist.ca

To create an account, go to inaturalist.ca/signup

Step 2

Add your observations

Check out the [iNaturalist Guide](#) for more information about how to submit observations!

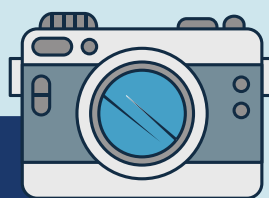

Step 3

Include your data in AC CDC iNaturalist projects

Add your observations to our [Rare Species projects](#)! This ensures that we have unobscured access to your iNaturalist observation data.

Data submission tips

We love photos!

Photos help us to confirm your species identification and ensure your observation is high quality! Send us photos with your observation data.

Did you use a GPS to collect your data?

We want to know all about your process! How were your coordinates obtained? Did you use a GPS or Google Maps? How certain are you of your coordinates?
